SUMMARY

MERN Stack Web Developer skilled in React.js, JavaScript.js, Node.js, Express.js, MongoDB, and Firebase. Experienced in building responsive, full-stack web applications with a focus on UI/UX and performance. Proficient in REST APIs, state management, and database integration using modern web tools. Passionate about creating scalable solutions and seeking a full-time opportunity to grow and contribute.

PROJECTS

1. E-Commerce Shopping Web Application - A web application featuring interactive product listings and a user-friendly design to enhance the online shopping experience.

Self -based   **Sep 2025 - Sep 2025**

Tech Skills - React (Vite), Node.js, Express.js, MongoDB, Firebase Authentication, Tailwind CSS, HTML, CSS, JavaScript, React Router DOM, Git/GitHub

- Developed a full-stack e-commerce web application using React (Vite), Node.js, Express.js, MongoDB, and Firebase Authentication with secure login and registration.
- Designed responsive UI/UX with Tailwind CSS, including navbar, product pages, product details, add-to-cart functionality, and dynamic state management using React hooks.
- Integrated RESTful APIs for CRUD operations, location support, seamless navigation with React Router DOM, and deployed the application with Git/GitHub version control.

2. Bulk Mail Application - Web Page of Sending one email to many people at once

Self -based   **Aug 2025 - Aug 2025**

Tech Skills - HTML, CSS, JavaScript, React (Vite), Tailwind CSS, Express.js, MongoDB, Axios

- Developed a full-stack bulk mailing app using React (Vite), Tailwind CSS, Express.js, MongoDB, enabling businesses to send newsletters and greetings in bulk.
- Implemented REST APIs with Express, used Axios for frontend–backend communication, and managed state with React Hooks (useState, useEffect).
- Used Git & GitHub for version control, managing feature branches, commits, and code reviews to maintain clean, collaborative development.
